SETU · KUMBH WAYFINDING

Progress: done and remaining

Status on 31 October 2026

- **All 8 phases built in software** — tested and reviewed
- **Field work remaining** — pilot in Nashik, real phones, approvals

Built and tested on the development machine. Nothing is tested on site in Nashik or on real phones yet. Not deployed.

1 — 2 — 3 — 4 — 5 — 6 — 7 — 8

Completed

8 phases in software

1 Offline navigation app — Done

The core of Setu

- Nashik map on the phone, GPS walking guide
- Works without internet (airplane mode)
- 156 places and pilot-zone streets (OSM)
- English, Hindi and Marathi

2 Safe and reliable routes — Done

Correct guidance, always

- Godavari crossed only on bridges
- Labels show how each place was checked
- Damaged data and full storage handled
- Test mode to walk Nashik from anywhere

3 Volunteer & admin tools — Done

Collecting and controlling the data

- Volunteer sign-in; works even offline
- Volunteer screens in Hindi and Marathi
- Admin data checks and change history
- Publish to all phones, roll back in one tap

4 Security, docs & audit — Done

Ready for the next stage

- Security and privacy review: 8 issues fixed
- Test report, launch checklist, known limits
- Backup and restore tested
- Full audit against the new safety goals

5 Stabilize and locate — Done

Find where you are

- QR boards: scan the link or type a 5-letter code
- Facility open / closed status that expires
- Search a place by name; "checked on site" labels
- Real-browser test of the whole app

6 Pilgrim safety — Done

SOS and lost persons

- SOS works offline: Not sent → Sent → Acknowledged
- Operator screen with a new-alert signal
- Lost-person cases (off until the authority approves)
- Minimal personal data, deleted automatically

7 Assistant & admin — Done

Help for visitors and staff

- "Ask Setu" offline; emergencies get 112 and SOS first
- Answers only from checked data, never invented
- Report helper for operators (suggestions only)
- Operations summary; no outside AI service

8 Final checks & pilot — Software done

The road to launch

- Fresh security review; tighter browser protection
- Privacy (DPDP) checklist for a lawyer
- Test plan for 20 scenarios; stale-data warning
- Launch report: rollback, incidents, training

Still needed

outside software

! Field pilot — In Nashik

Volunteers and real phones

- Walk and check the pilot lanes (0 checked today)
- Decide the 5 river crossings without a bridge
- Test on Android and iPhone, in crowds
- Native Hindi and Marathi read-through

! Approvals and launch — Owner & authority

Before pilgrims use it

- Privacy notice and a lawyer's DPDP review
- Authority: SOS staffing, cases, QR boards
- Security test, load test, accessibility check
- Server, domain, monitoring; approve deployment
